Subject: Microsft Settlement

To Whom it may concern,

It is obvious to all that this is a misguided political vendeta against Microsoft. Everysence this case has started the market and then the economy has suffered.

It is time to let free enterprise work and get the economy going again.

It is a shame the companys that are backing this suit against Microsft connot see that they are cutting their own throats by destroying the market and the economy.

Sincerly,
George G. Ghosn DDS MAGD FICD FPFA
